

## **X24 hackathon from Aug 24-25 to focus on industry buzzwords**

**PUNE:** Extentia's hackathon, X24 will hold its fourth season with a focus on the current buzzwords in disruptive innovation – data, intelligence and experience. The annual event to be held on August 24-25 has been aptly titled D.I.E. Hard. It will require participants to develop technology-based solutions for real-world problems – from concept to pitch. X24 2018 will have six teams comprising coders, designers, and sales representatives competing to solve a set of challenge statements. This year's event can be viewed by all technology enthusiasts across the globe through a live web feed.
